## CAREER OBJECTIVE

As an information technology student, my goal is to continue learning about coding and full-stack web development to become a highly skilled web developer. I am passionate about developing websites

## PROJECTS

### BANNARI AMMAN INSTITUTE OF TECHNOLOGY WEBSITE DUPLICATE

- **Role:** Individual Developer
- **Technologies:** HTML, CSS, JS, Python, OpenCV, Flask
- **Description:** Replicate the original website using HTML, CSS, and JavaScript with new features: BIT-Voice-Assistant and Bannari Amman Attendance Monitoring System

### BIT TRANSLATOR & PDF TOOLS

- **Role:** Backend Developer
- **Technologies:** Firebase, Python, Flask
- **Description:** BIT Translator & PDF Tools is a Flask-based web application that provides multiple PDF and translation utilities, similar to iLovePDF. It includes PDF conversion, compression, merging, splitting, and a language translator with history and favorites.

### HIDDEN COST IDENTIFIER(EXTENSION)

- **Role:** Backend Developer
- **Technologies:** Python, HTML, CSS, JavaScript
- **Description:** Designed and developed a browser extension to identify additional charges and final billing amounts on Amazon. Utilized web scraping to detect dark patterns, highlighting them within the page and displaying the type of dark pattern present.
